

At a recent CAA weekend gathering for their towing and repair facilities, CAA presented Corporate Autoworks with a bronze Best Facility Award for their repair facility. Chosen out of 64 CAA South Central Ontario's Approved Auto Repair Services (AARS) locations, this is a singular honour. CAA is the only national organization that evaluates repair facilities for quality of workmanship, customer convenience and customer care. The AARS facilities are the cream of the crop and to receive this award is a tribute to the high standards met by our customer service and auto technician personnel.

Many thanks to our clients who make our work so gratifying.
